14. Review of performance of the Company and its principal subsidiary companies for the current quarter and financial period ended 31 March 2009

The Group's revenue was RM436.6 million compared with RM510.5 million for the corresponding first quarter in 2008, representing a decrease of 14.5%. The decline was a result of lower turnover from the Engineering, E & P Product & Services and Infrastructure/Building Materials businesses.

Notwithstanding the decrease in revenue, the Group recorded a significant improvement in profit before tax of RM55.0 million compared with RM33.1 million in the corresponding first quarter in 2008, representing an increase of 65.8%. The increase was mainly contributed by more buoyant Pipe Coating business and stringent cost management.

15. Material changes in the profit before taxation for the current quarter as compared with the immediate preceding quarter

The Group's profit before taxation for the first quarter was RM55.0 million compared with RM40.9 million in the immediate preceding quarter. This increase was due to strong improvement in the Pipe Coating business.

16. Current period prospects

Recent economic and financial indicators may point to increased possibility of the global recession stabilizing within the next 12 – 18 months. The current financial year is expected to remain challenging and may impact the industries the Group operates. Generally, the recovery of the crude oil price from the lows of around US\$33 per barrel in December 2008 to current level of above US\$60 per barrel is viewed positively. This is likely to brighten the outlook for oil & gas industry as more energy infrastructure projects would be implemented or reactivated in the future. Furthermore, recent recovery in other commodities also has some stabilising effect on this outlook. Nevertheless, the Group will remain vigilant and continue to focus on operational efficiencies and effective cost control, evaluating risks more stringently and alignment of the Group's strategies in order to remain competitive.

Industrial Services Division is expected to perform satisfactorily in view of higher economic activities generated from the significant government stimulus packages being implemented in the country and in the region, resulting in higher regional infrastructure developments.

17. Taxation

Taxation comprises the following:

	Current quarter ended 31.03.2009 RM '000	Current period to-date 31.03.2009 RM '000

- Foreign Tax Expense	1,822	1,822
	<u>6,389</u>	<u>6,389</u>

	RM '000	RM '000
Profit before taxation	<u>55,026</u>	<u>55,026</u>
Tax at the average applicable tax rate - 25%	13,757	13,757

Save as disclosed below, there were no material litigations pending since 25 February 2009 up to 22 May 2009.

(i) SUPREME COURT OF SOUTH AUSTRALIA
CASE NO. 1400 OF 2007

On 29 October 2007, a claim for AUD3.5 million was served by Workcover Corporation of South Australia ("Plaintiff") on WSIPL Australia Pty Ltd (formerly known as Delco Australia Pty Ltd) ("WSIPLA"), a subsidiary, for supplementary exit levy referred to as "balancing payment" under the Workers Rehabilitation and Compensation Act, 1986. This balancing payment was imposed on the grounds that WSIPLA had "ceased to be an Employer" when WSIPLA filed a "No Employee" return under the WorkCover Scheme notwithstanding that WSIPLA had been paying the monthly levy payments prior to this return.

The filing of the "No Employee" return was a consequent of the company's rationalisation of its operations in Australia by concentrating its business entirely in Brisbane, Queensland instead of previously operating in both Adelaide, South Australia and Brisbane.

When the Plaintiff issued a tax invoice for the balancing payment, WSIPLA sought a review by the WorkCover Levy Review Board of the cancellation of WSIPLA's registration and imposition of the balancing payment.

Notwithstanding the review, the Plaintiff has proceeded to issue a summon for the above-mentioned claim. WSIPLA's solicitors are of the view that the Plaintiff is not empowered to impose the balancing payment and contend that the calculation in any event for the balancing payment is excessive. WSIPLA had on 4 December 2007 filed its defence against the claim and in defending the claim, WSIPLA intended to engage a barrister who was also involved in an identical dispute with another (de-registered) employer ("Latter Dispute"). WSIPLA's solicitors were of the opinion that the Latter Dispute is likely to proceed in the Supreme Court of South Australia and would provide a ruling on the legality of the balancing payment. At the proceedings held on 20 February 2008 in the Supreme Court, the Plaintiff and WSIPLA had consented to stay of proceedings pending the outcome of the Latter Dispute. The Plaintiff had also agreed not to claim interest, either pursuant to the legislation relating to the WorkCover or the Supreme Court Act during the period of the stay. The Latter Dispute was listed for hearing on 9 April 2009. However the parties to the Latter Dispute have reached an out-of-court settlement. This matter is now pending further advice from WSIPLA's solicitors on the impact of the settlement of the Latter Dispute and the next course of action for WSIPLA.
